EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dawn Hayes on August 10, 2004.

On line 6 of claim 1, the phrase "defined by a top surface of a section of said base plate" was changed to --defined by a section of said top surface of said base plate--.

2. The following is an examiner's statement of reasons for allowance: Application serial no. 10/042,258 is being allowed since none of the prior art of record teaches or fairly suggests an apparatus comprising a base plate having a top surface and a bottom surface, a well defined by a section of the top surface of the base plate and a wall that extends above the top surface of the base plate, and a cover plate hingedly connected to the base plate that serves to move between an open position to introduce a sample to the well and a closed position, wherein the cover plate covers the sample in the well. None of the prior art of record teaches or fairly suggests a cover hingedly connected to a base plate or slide that serves to cover an upstanding well on the base plate or slide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
